

# REYNOLD ANDIKA GRADIYANTO

085158901898 | reynold@nekro.dev | linkedin.com/in/reynold-andika-gradiyanto | nekro.dev | Jakarta, Indonesia

Software Developer with 3+ years of experience in web and mobile development, specializing in PHP (Laravel), MySQL, and modern JavaScript frameworks. Experienced in building scalable systems including ERP, CMS, and e-commerce platforms, with strong focus on API integration, performance optimization, and system reliability.

## WORK EXPERIENCE

---

### PT. ALDMIC COOPN DIGITAL

Web Developer | December 2023 – Present

Jakarta, Indonesia

- Developed and maintained company and client web applications using **PHP (Laravel), MySQL, JavaScript, jQuery, and Bootstrap**
- Built and enhanced **landing pages and company profile websites**, improving usability and performance.
- Provided **technical support within client projects**, handling debugging and issue resolution.
- Contributed to the development of an **internal global e-commerce platform**, integrating Payment Gateway and WhatsApp (Qontak) APIs.
- Assisted in **microservices-based** chatbot development integrated with WhatsApp.
- Developed and customized **CRM and CMS system**, including feature implementation and bug fixing.
- Improved performance through **MySQL queries optimization (indexing) and API refactoring following best practices**.
- Optimized **MySQL queries (indexing) and refactored APIs**, Improving response time by up to **20-30%**.
- Created **technical documentation** for API and system improvements.
- Implemented **Docker-based containerization** and supported **internal IT operations** (server, network, hardware, Proxmox).
- Collaborated using **Git (GitHub & GitLab)**.

### PT. SEMPOA PRIMA TEKNOLOGI
